■Introduction ■

"Wanpaku sumo" was based on "Tokyo 23 wards attractiveness · 2nd citizen attitude survey report" carried out by the Junior Chamber International Tokyo in 1976. We took up the "sumo" which is a familiar sports with the purpose of giving more opportunities for sports to children in Tokyo with few playgrounds, training for physical and mind and promotion of health. It starts with expansion as motion to the all 23 wards in 1977.

■Purpose ■

Through sumo wrestling, which is a Japanese national sport in Japan, children learn to honor the winners and respect themselves by experiencing the joy of winning and the hardness of losing. Sumo promotes mental and physical training and health, nurturing compassion for losers.

■Competition method ■

The competition will be held every grade and will compete in a tournament form or a two-part battle style depending on the number of participants. We will do the final tournament when the winning number reaches 8. ※ There is a change in battle scheme depending on the number of participants. Men's and women's winners in the fourth to sixth graders can participate in the Tokyo Metropolitan Convention to be held in June, and if they win a top prize at the Tokyo Metropolitan Government, they will be able to participate in the national competition to be held in both countries' Kokugikan in July.

■Time schedule of the 42nd Wanpaku Sumo ■

09: 30 Reception start

10: 00 Participants set
